

# **NO JERKS AT WORK**

**Presented by Tammy K. Rogers**

## **Jerk-like behavior in the workplace is on the rise**

Just type “bad boss” or “toxic work environment” into Google and see what happens. Add our amplified focus on sexual harassment and hostile work environments – and you’ve got the perfect storm.

### **In this interactive session attendees will:**

- Discover how jerks impact work
- Recognize the risks of ignoring jerks at work
- Understand our role in addressing jerks at work
- Realize how each of us can be jerks

Jerk-like behavior hurts us personally and organizationally. And while we may never get rid of ALL the jerks at work – each of us has the power to not be one of them.
